"Un Regalito Misterioso" (2014-2015) Stereo | 9:22

This acousmatic work is a tribute to Matilde Pérez, Chilean visual artist who passed away in 2014. Composed at the author's personal studio in Santiago de Chile and the University of Sheffield Sound Studios. Pérez was a pioneer in the kinetic art and the confluence of art & technology.

The piece uses synthetic and recorded sounds, combining manual techniques and random algorithmic procedures for some structures and materials.

Matilde Pérez's voice corresponds to some highlights of an interview with Cristian Warken for his TV programme "Una belleza nueva" (Chile, 2010):
